

Villaggio in Salento

A Premium Tourist Village Resort Investment in Puglia's Thriving Hospitality Market

Executive Summary

Property Overview

Asset Type: Tourist village resort

Location: Salento, Puglia, Italy

Total Plot: 25,100 sqm

Status: Fully permitted and operational

Investment Highlights

- Comprehensive all-in-one hospitality complex
- Multiple revenue streams across accommodation, F&B, wellness, and events
- Modern energy-efficient infrastructure
- Strategically positioned in high-demand tourism area

This memorandum presents a compelling investment opportunity in one of Southern Italy's most sought-after tourist destinations, offering institutional-grade infrastructure with proven operational capacity.

Prime Location: Salento, Puglia

Salento represents one of Italy's fastest-growing tourism markets, renowned for its stunning coastline, cultural heritage, and exceptional Mediterranean climate. The region has experienced consistent year-on-year growth in both domestic and international visitor numbers, with particularly strong demand from Northern European markets seeking authentic Italian hospitality experiences.

Accessibility

Direct flights from major European cities to Brindisi and Bari airports

Tourism Appeal

UNESCO-recognized cultural sites and pristine Adriatic coastline

Season Extension

Mild climate supports extended operating seasons beyond traditional summer peak

Accommodation Portfolio

The property features a diversified accommodation portfolio designed across two-storey buildings with independent access, ensuring privacy and operational efficiency. The intelligent room configuration provides clear revenue management opportunities through tiered pricing strategies.

Classic Rooms

"500" and "600" categories

Ground floor units with covered verandas, ideal for families and extended stays. Entry-level pricing captures value-conscious segments whilst maintaining quality standards.

Superior Rooms

"700" category

Enhanced specifications with premium fixtures and larger floor plans. First-floor positioning with spacious balconies commands mid-tier pricing with strong margins.

Deluxe Rooms

"800" category

Top-tier accommodation with superior finishes and prime positioning. Captures high-value guests seeking premium experiences at competitive rates to regional five-star offerings.

All units feature autonomous air conditioning systems, ensuring individual climate control and reduced operational costs through zone management.

Revenue-Generating Facilities

Restaurant & Bar Complex 1,150 sqm

Full-service dining facilities including buffet and à la carte options. Structurally integrated with accommodation buildings, optimising service efficiency whilst providing flexible F&B revenue opportunities beyond room packages.

Conference & Events Centre 500 sqm

Multi-purpose venue with independent climate control and professional specifications. Captures lucrative corporate MICE market, including on-site pastry kitchen (64 sqm) supporting premium catering services.

Wellness Centre 200 sqm

Comprehensive spa facilities including massage treatment rooms, Turkish bath, and relaxation areas. Drives ancillary revenue through premium wellness services increasingly demanded by discerning guests.

Entertainment Theatre 480 sqm total area

Indoor performance venue with 300 sqm floor area and distinctive tent-style roof. Supports animation programming essential for all-inclusive models, enhancing guest satisfaction and repeat business.

Recreational Amenities

Swimming Pool Complex

Total water area: 700 sqm

The property features a thoughtfully designed aquatic leisure offering comprising two adult pools, one dedicated children's pool, and a relaxation pool strategically positioned near the conference centre and covered amphitheatre. This configuration supports both family holiday-makers and corporate event attendees, maximising utilisation across diverse guest segments.

Sports & Recreation Facilities

Dedicated sports area: 7,000 sqm

- Regulation tennis court for competitive play
- Full-size football pitch
- Health and fitness paths throughout grounds
- Dedicated children's play area with safety surfacing

Extensive parking infrastructure includes 2,400 sqm covered private parking for resort access and additional 500 sqm for paddle court visitors, ensuring operational convenience and supporting ancillary revenue opportunities.

Sports Grounds

Square metres of active recreation space

2.9K

Parking Capacity

Square metres across facilities

Operational Infrastructure

The property benefits from comprehensive back-of-house infrastructure designed to institutional hospitality standards, ensuring efficient operations and compliance with Italian regulatory requirements.

Commercial Kitchen Facilities

Multiple work zones with full sanitary compliance, supporting high-volume F&B operations across breakfast, lunch, and dinner services for both residential and event guests.

Food Storage & Technical Rooms

Professional-grade storage facilities and technical infrastructure across ground and basement levels, optimising supply chain management and equipment maintenance protocols.

On-Site Laundry Services

Dedicated industrial laundry facility enabling in-house linen management, reducing operational costs and ensuring consistent quality standards essential for brand positioning.

Staff Accommodation

Locker rooms with integrated staff living quarters, supporting seasonal employment models common in resort operations whilst ensuring workforce stability during peak trading periods.

Sustainability & Compliance

The asset demonstrates strong environmental credentials and regulatory compliance, positioning it favourably for ESG-focused institutional capital and increasingly sustainability-conscious guest demographics.

Renewable Energy

Integrated photovoltaic system substantially offsets electricity consumption, reducing operational costs and carbon footprint.

Eco-Construction

Eco-compatible materials throughout, with enhanced insulation exceeding regulatory requirements for summer cooling efficiency.

Smart Building Systems

Building automation and supervision systems enable precise energy management and predictive maintenance, optimising lifecycle costs.

Full Permitting

Multiple building permits obtained 2003-2009, with all facilities compliant with current Italian hospitality regulations.

Investment Rationale

Strategic Advantages

Diversified Revenue Streams

Multiple income sources across accommodation, F&B, wellness, events, and sports reduce concentration risk inherent in single-use assets.

Operational Efficiency

Integrated design and modern systems infrastructure support strong operating margins typical of well-managed village resort formats.

Market Positioning

Located in Salento's high-demand tourism corridor with limited new supply pipeline, benefiting from strong structural occupancy trends.

-  **Value-Add Opportunity:** The property presents scope for revenue optimisation through contemporary branding, digital marketing enhancement, and strategic repositioning within Puglia's evolving luxury tourism segment. Comparable assets have demonstrated significant NOI growth following institutional capital investment and professional asset management implementation.

Next Steps

This investment opportunity represents a rare chance to acquire institutional-quality hospitality infrastructure in one of Southern Italy's most dynamic tourism markets. We invite qualified investors to engage in detailed due diligence and financial modelling.

1

Expression of Interest

Submit preliminary investment parameters and indicative capital allocation

2

Information Memorandum

Access comprehensive financial models, operational data, and market analysis

3

Site Inspection

Conduct physical due diligence and management presentations

4

Transaction Execution

Finalise terms and complete acquisition documentation
